06 Administering the Code

# Foreword

Everyone in UPL is responsible for championing our culture. Our success depends on us weaving our culture into every aspect of our business. It shapes how we behave, both collectively and individually.

To fully live our culture, we all need to know our purpose, vision, mission, pillars and exhibit the behaviours that drive our values individually and corporately.

This Code of Conduct serves as our compass to do business in all the geographies where UPL operates globally.

Our vision is to be an icon for growth, technology, and innovation. We will only achieve this by becoming an admired model across everything we do, defining and meeting a standard of behaviour that is truly world-class.

I promise to live up to these principles in the way I personally operate and I hope that each and every one of you will too.

**Jai Shroff**

Global Chief Executive Officer  
UPL Group.

# Our Mission

Making agriculture simple,  
profitable and sustainable for  
generations to come through  
technology-led solutions

Improve the quality of life and foster a resilient farmer by creating a sustainable ecosystem that solves problems holistically

Provide timely scientific information at every stage of the crop cycle

Present guided interventions at the optimum time to only do what's required without wasting effort in unnecessary, costly and pollution-causing scheduled practices

Bring in transparency and traceability of authentic products so that farmers, retailers and traders are never deceived

Supply convenient, effective, environmentally sustainable, professional services in spraying and other methods

Establish trust and deliver economic outcomes to current farmers to inspire those who have left, to return to agriculture with confidence

# Our Core Values

Our values shape how we think, how we work, and the behaviours we stand for. Most importantly, they guide us to make decisions the “nurture.farm” way.

## **OPEN MINDS. ECOSYSTEM THINKING.**

We are here to reimagine sustainable agriculture across the ecosystem. We are open to all ideas—no limits, no borders. We make choices that create lasting, holistic value for the entire ecosystem.

## **STRONGER COMMUNITIES. HAPPIER PLANET.**

We display empathy and care for the communities we serve and the planet we live on. We connect often and meaningfully with the grassroots.

## **THINK BIG. KEEP LEARNING.**

We like to think big in everything we do—goals, effort and impact. We pursue audacious goals rather than incremental targets. Yet, we believe failure creates learning, so we treasure our failures.

## **EXECUTION OVER PERFECTION.**

We like to iterate and learn. We frequently experiment while being grounded in reality. We set an exceptionally high bar to plan what we aspire for, and to execute what we plan.

## **OWN THE OUTCOME.**

We like to own the outcomes we are responsible for. We trust people to do the right thing, and we uphold the trust they place in us. We go beyond our role to build our organisation and help our people become better versions of themselves.

## **IDEAS OVER HIERARCHY.**

We value diversity and openness in people and ideas. We believe in a culture of ideas over hierarchy. We evaluate opportunities based on merit and demonstrate transparency in everything we do.

# About the Code of Conduct

The Code of Conduct expresses nurture.farm's commitment to conducting business ethically. It explains what it means to act with integrity and transparency in everything we do and in accordance with our unique culture and values. As members of the nurture.farm family, let us follow not only the letter of the Code, but its intent and spirit as well. This means we should:

- Understand the areas covered by the Code, Company policies and procedures, and laws that apply to our job.
- Follow the legal requirements of all locations where we do business.
- Conduct ourselves in ways that are consistent with the Code, Company policies, procedures and laws.
- Speak up if we have concerns or suspect violations of the Code, Company policies, procedures and laws.
- When requested, certify that we have reviewed, understood and agreed to follow the Code.
- Understand that following the Code is a mandatory part of our job.

The Code cannot address every situation that may occur. We are expected to exercise good judgment and ask questions when we need guidance or clarification. Many resources are available to assist us. These include our managers, the Human Resources Department, the Legal Department and other resources as may be informed from time to time. In addition to the Code, we should also be aware of all Company policies and procedures applicable to our work. You may refer to the Policy Portal which is a repository of all our policies.

# Scope and Purpose of this Code

This Code sets expectations for all those who work with us. We also expect those who deal with us to be aware that this Code underpins everything we do, and in order to work with us they need to act in a manner consistent with it.

**The Code acts as a guideline while dealing with the broadly categorised following stakeholders:**

Employees

Customers and Suppliers

Communities and Environment

Governments

Shareholders

## 04 Media Policy

**Use of Social Media:** “Social media” includes any digital communication channels that allow individuals to create and share content and post comments. On social media, employees should be polite, respectful, and remember that one’s conduct may impact the way others view who we are and what we stand for as a Company. This applies to communication related to job responsibilities and personal communication that may impact the Company. Do not share or post comments about the Company’s financial performance, sales trends, strategies, forecasts, legal issues, future promotional activities, or any other confidential business information. Similarly, do not share or post information about customers, suppliers, other business partners, or Company employees. We treat such personal information with care and take responsibility for protecting it and using it lawfully and properly. Personal information shall be collected only for legitimate business purposes, shared only with those who are legally permitted to have access, protected in accordance with security policies and retained only for as long as necessary. We also must ensure that third parties with access to personal information are contractually obligated to protect it.

## 06 Conflict of Interest

A conflict of interest occurs when a personal relationship or activity could influence your judgment and ability to perform your job in an objective way and uphold your duties to your employer. Even the appearance or perception of a conflict of interest can place our Company at risk. As employees, we should never allow personal gain or benefit to prevent us from doing what is in the best interest of our Company. It's not always clear whether an activity creates a conflict of interest. However, it is the responsibility of every employee to disclose a potential conflict. For this reason, employees should discuss any potential conflicts, or questions about how to best handle a situation of conflict with their managers, the Human Resources Department or the Legal Department.

Instances which can be regarded as conflict of interest and the expected behaviour from employees:

### **a. Freedom of association**

We recognise that employees may be interested in joining associations or involving themselves in civic or public affairs in their personal capacities, provided such activities do not create an actual or potential conflict with the interests of our Company. Our employees must notify and seek prior approval wherever necessary for any such activity from their manager, the Human Resource Department or the Legal Department, and in accordance with applicable Company policies and law.

#### **b. Outside employment, work or activity**

Taking employment, accepting a position of responsibility or running a business outside employment with our Company, on your own time, with or without remuneration, could interfere with your ability to work effectively at our Company or create conflicts of interest. Any such activity must not be with any customer, supplier, distributor or competitor of our Company. Our employees must notify and seek prior approval for any such activity from their manager, the Human Resources Department, or the Legal Department, and in accordance with applicable Company policies and law.

#### **c. Expense reporting and reimbursement**

Employee travel and other related expenses should be consistent with the needs of business and follow Company policies and procedures. The Company's intent is that an employee does not lose or gain financially as a result of business travel and accommodation. Employees are expected to spend the Company's money as carefully as they would their own.

- Employees who submit or approve expense reports are responsible for ensuring that:
- Expenditures are proper and reasonable.
- Expense reports are submitted promptly.
- Receipts and explanations properly support reported expenses.

#### **d. Family members and close personal relationships**

It is obligatory for an employee to declare that he/she is related to any other employee of the Company as soon as he/she discovers it, to the HR department. Avoid holding a position with access to or influence over performance appraisals, salary information or other confidential information related to a family member. Employment of relatives is subject to management discretion.

#### **e. Gifting and hospitality**

nurture.farm and its employees shall neither accept nor offer to government officials or private parties (directly or indirectly) any illegal payments, remuneration, gifts, donations, or comparable benefits that are intended or perceived to be intended to obtain business or any improper advantage, or to influence any act or decision. Employees may however accept and offer gifts during the course of business, provided such gifts are customarily given, of a nominal value, and are of a commemorative nature, such as diaries, calendars and other stationery items. Employees may also attend and take others out for normal or customary business lunches, dinners and functions. These should however not impact or compromise objectivity and fairness of an employee while taking Company decisions. The foregoing should not, however, be offered to government officials, unless they comply with all applicable laws and are approved in advance by the Legal Department.

For additional guidance, consult our Anti-bribery and Corruption policy.

#### **f. Corporate opportunity**

All employees should ensure that the Company does not lose any benefit accruing to it by negligence or delay in action. Any benefit accruing to the Company should be used only for Company purposes. There should not be any personal gain arising out of it. However, in specific instances where there are some indirect benefits accruing to employee(s), specific approval should be obtained. While working at nurture, employees are likely to learn about, or be involved in developing business opportunities to serve the Company's corporate objectives.

Employees must not take improper advantage of these situations. Specifically, employees may not:

- Personally take business opportunities that arise through use of Company property, information, or one's position with the Company.
- Directly or indirectly compete with the Company for business opportunities that the Company is pursuing.

## 07 Confidentiality & Intellectual Property Protection

Employees will encounter a variety of confidential information which may take many forms. They must take proper care of such information and ensure that it is not misused in any way or used for their own benefit. Employees who have access to proprietary and confidential information must take precaution to keep it confidential. Information should be disclosed on a need-to-know basis to people who need to know such information and employees should exercise their own discretion in the same.

nurture.farm has a procedure for entering into confidentiality agreements with various vendors, which shall be executed before any information is shared with them.

An employee is expected to accept only such information as is necessary to accomplish the purpose for which it is received, and not for any other purpose.

All inventions and innovations during the course of business will belong to nurture.farm. These include new products, processes, ideas, and services that get developed while working on various assignments. Every employee should take precaution to prevent any loss of such intellectual property rights and seek counsel from the IPR/Legal Department for protection of nurture.farm's intellectual property.
